Kuja Dosha Comparison

Great importance is attached to the effect of KUJA in a horoscope. Kuja plays an important role in determining marriage compatibility. Often people say that there is Kuja dosha in a horoscope simply because Kuja is in the 7th. or 8th. house. However, authentic books on astrology gives several rules of exception by which Kuja dosha can be considered as nullified. A proper analysis on this basis is given below.

Kujadosha check with reference to Lagna

For the girl, Kuja is in the seventh house : strong dosha.
 However, since Kuja is strong in this horoscope with RUCHAKA YOGA, Kuja dosha gets cancelled.
 For the boy, Kuja is in the fourth house : weak dosha

Kujadosha in girl's horoscope is less than the boy.

Kujadosha check with reference to Chandra

Shukra	Girl has less dosha

Kujadosha check is NOT SATISFACTORY

Papasamya

Papa (dosha) Comparison is done here by assigning points for the position of Mars, Saturn, Rahu, Ketu and Sun with respect to Lagna, Moon as well as Venus.

The method used here is Equal Point - Equal Weightage (1-1-1)

Papa Points Girl

	From Lagna		From Chandra		From Sukra	
	Position	Papam	Position	Papam	Position	Papam
Mars	7	1.0	4	1.0	9	0.0
Saturn	6	0.0	3	0.0	8	1.0
Sun	10	0.0	7	1.0	12	1.0
Rahu	8	1.0	5	0.0	10	0.0
Total		2.0		2.0		2.0

Papa Points Boy

	From Lagna		From Chandra		From Sukra	
	Position	Papam	Position	Papam	Position	Papam
Mars	4	1.0	7	1.0	7	1.0
Saturn	1	1.0	4	1.0	4	1.0
Sun	11	0.0	2	1.0	2	1.0
Rahu	3	0.0	6	0.0	6	0.0
Total		2.0		3.0		3.0

Papasamyam is EXCELLENT.

Dasa-sandhi Check

Date of birth of girl 1-5-1988

Dasa balance at birth Rahu 15 years 0 months 3 days.

Dasa balance at birth Surya 4 years 4 months 6 days.

Rahu dasa ends 13-03-2028

There is no serious dasa sandhi for this couple. This is a GOOD indication.

Star Compatibility check using Guna Milan system

Since 1984, Astro-Vision has done pioneering work in computerisation of Indian Astrology. "SoulMate" software for determining compatibility for marriage has been developed after a detailed study of practices in various parts of India. It is seen that although the basic principles of judging compatibility are the same, there are variations in the standards applied in different places. Also, there are differences of opinion between authors regarding exceptional clauses. Research has revealed that ready reckoner charts published in many of the almanacs and other books are full of typographical and other errors and often skewed due to the personal opinion of the authors. In developing "SoulMate" Astro-Vision has delved deep into the science, compared the practices in different regions, rechecked the references in original slokas and created the logic for checking marriage compatibility. Different versions are provided to suit regional practices. The "Guna Milan" method for comparing the birth star selected here checks the eight 'Guna Kootas' and assigns weighted points. Minimum of 18 points out of a total of 36 Gunas is considered as a minimum requirement for matching. In addition to the eight Kootas, four more factors are analysed and presented for information. A brief explanation of the various Kootas is given below.

वर्णो वश्यं तथा तारा योनिश्च ग्रहमैत्रकम्।

गणमैत्रं भकूटं च नाडी चैते गुणाधिकाः

According to "Muhurtha Chintamani" Varna, Vasya, Tara, Yoni, Grahamaitri, Ganamaitri, Bhakoota and Nadi are the eight Kootas and in this order each factor has more Guna than the previous ones.

Varna Koota

Rasis are divided into four groups of Varnas namely

Varna	Rasi
Brahmin	Cancer, Scorpio, Pisces
Kshatriya	Aries, Leo, Sagittarius
Vaishya	Taurus, Virgo and Capricorn
Shudra	Gemini, Libra, and Aquarius

Varna of the bridegroom should be same or higher than that of the bride. One point is given to this Koota.

Vasya Koota

Vasya Koota shows the attraction between the birth stars of the bride and the groom. This also points to the control each one may be able to exercise on the other. Vasya Rasis of each rasi are as follows

Rasi	VasyaRasi
Medam	Leo, Scorpio
Edavam	Cancer, Libra
Mithuna	Virgo
Karkata	Scorpio, Sagittarius
Chingam	Libra
Kanni	Pisces, Gemini
Tula	Capricorn, Virgo
Vrischika	Cancer
Dhanu	Pisces
Makara	Aries, Aquarius
Kumba	Aries
Meena	Capricorn

If either the Rasi of the girl is Vasya Rasi of the boy or vice versa, Vasya Koota is considered good and two Guna points are given.

Tara Koota (Dina Koota)

Count from the Girl's birth star to that of the boy and divide the number by 9. If the remainder is 3, 5 or 7, it considered malefic. Otherwise two points are given. Similarly, count from the boy's star to that of the girl and divide by 9. If the remainder is 3, 5 or 7, it considered malefic. Otherwise one point is given. (Note: 'Muhurtha Chintamani' clearly states that checking should be done from girl to boy and also from boy to girl. However, many authors and practitioners, especially in South India, prefer to check the stars counting from Girl's star to boy's star only. Considering this factor, a higher wieghtage of two points are given in Astro-Vision Soulmate for the first check and only one point to the second check. A maximum of three Guna points will be obtained if the checks in both directions yield beneficial results.)

Yoni Koota

Stars are allotted 'Yonis' of animals. Yonis of bride and bridegroom should not be inimical to each other. 4 points are awarded if the yonis are the same, 3 if they are friendly, 2 if they are neutral, 1 if they are inimical and no points if the yonis are highly inimical. (In some regions in the South, especially in the State of Kerala, the sex (male or female) of the yonis are given more importance than the relationship between the animals. However, in the Guna Milan system selected here, this factor is ignored.) Yoni Koota indicates sexual aspects of marriage.

Graha Maitri Koota

Relationship between the lords of the Rasis is analysed in Graha Maitri Koota. Relationships between planets are graded as Friend, Neutral and Enemy. If Lords of both the bride and the bridegroom are the same or friendly to each other a maximum of five points are given. No points are given if they are inimical to each other. 1 to 4 points are appropriately awarded for other combinations of relationships. This is a very important Koota as it indicates the psychological factors of compatibility between the couple.

Gana Koota

The stars are divided into three groups namely Deva, Manushya (Nara) and Asura (Rakshasa). There are diverse opinions on the acceptable combinations of Ganas. It is accepted by all that ideally, a Deva girl can marry a Deva boy and a Manushya girl can marry a Deva or Manushya boy, and an Asura girl can marry an Asura girl. In Tamil Nadu regions many astrologers accept a combination of Deva girl and Manushya boy as "Madhyama" or average combination. In Kerala, many astrologers consider Manushya girl and Asura boy as "Madhyama". Astro-Vision has accepted the recommendations of "Muhurtha Chintamani" with minor modifications and settled on the following chart for awarding points

Girl	Boy	Points
Deva	Deva	6
	Manushya	5
	Asura	1
Manushya	Deva	5
	Manushya	6
	Asura	1
Asura	Deva	0
	Manushya	0
	Asura	6

Gana Koota is believed to have an important bearing on the compatibility of temperament and character of the couple.

Bhakoota

Bhakoota (Rasi Koota) is judged by the mutual position of the moon signs of the girl and boy. According to "Muhurtha Chintamani", mutual position of Janma Rasis in 6/8, 5/9 or 2/12 is considered malefic and no points are given. Otherwise, full 7 points are awarded. However, there are considerable differences of opinion on this topic. Some astrologers consider that if boy's rasi is farther than six from the girls Rasi, malefic effects are nullified. Also, if the Lords of the Rasis are the same or friendly to each other, the malefic effects are cancelled. Since a weighted point system is followed and many compensating factors get their own points, a strict approach to 'Bhakoota' is implemented in Astro-Vision Soulmate.

Nadi Koota

Birth Stars are grouped into three groups of Nadis namely Adi, Madhya and Antya. If the stars of the girl and boy belong to different Nadis, full 8 points are given. If they belong to the same Nadi, no points are given. Here again, exceptions and personal opinions of authors are not taken into consideration. The Nadi Koota is referred to as "Rajju" in Kerala. But only "Madhyamma Rajju", that is if both the stars belong to the Madhya or middle group is considered extremely malefic and sufficient reason to recommend against matching.

Mahendrakoota

Mahendra Koota is considered to be present, if the boy's star counted from that of the girl is 4, 7, 10, 13, 16, 19, 22nd or 25th. This ensures well being and prosperity.

Streedeeerga koota

Stree Deerga Koota is considered to be satisfactory if the birth star of boy is counted beyond 9th of the girl and excellent if it is beyond 18th.

Rajju Dosha

The stars are grouped into five groups of Rajju, namely Pada Rajju, Katirajju (Tudai Rajju), NabhiRajju (Udararajju), Kantarajju and Sirorajju. The stars of the couple should fall in different Rajju groups. Otherwise it is considered as Rajju Dosha (absence of compatibility).

Vedha Dosha

Certain stars are capable of afflicting some other stars and if the stars of the girl and the boy belong to these combinations Veda Dosha is predicted. Veda Dosha is given great importance by many astrologers as it is believed to cause constant fighting between the couple.
